

## Synithia Williams Media Kit

### **Biography:**

Synithia Williams has been an avid romance novel lover since picking up her first one at the age of thirteen. It was only natural that she would begin penning her own romances soon after. She's a native of South Carolina and now writes romances as hot as their southern settings. She's published over fifteen novels since 2012. Her seventh book, *Making it Real*, was listed as one of the Must Read Romances of 2015 in USA Today. Her second release with Harlequin Kimani, *A Malibu Kind of Romance* was a 2017 RITA® finalist and she's a two time African American Literary Award Show nominee in Romance. Synithia is married to her own personal hero and they have two sons who've convinced her that professional wrestling and superheroes are supreme entertainment. "WORTH THE WAIT is a great contemporary romance with fresh young characters that readers will certainly enjoy. The plot is conventional but Synithia Williams manages to put an innovative spin that makes it fun and appealing.
